1. How have you and/or will you support the mission and purposes of the RainbowPAC as outlined above? Please be specific.

Though not specifically business related, I stress the community aspect of protecting an environment for LGBT students to flourish.

2. Are you a current member of the Sacramento Rainbow Chamber of Commerce? If yes, since when? And, are you or any of your staff or key volunteers openly LGBT?

I am not a member of the Rainbow Chamber. I am a member of the Stonewall Democrats. A member of my volunteer walkers is openly gay.

3. Describe how you would support/oppose the use of programs to ensure equal opportunities, policies, laws, and/or ordinances that protect LGBT individuals in the workplace.

I have ensured the inclusion of representatives from the LGBT community in Board action on LGBT issues. I have recruited members of the LGBT community to sit on committees affecting Board policy to ensure the full inclusion of our LGBT students on Board policy.

4. What are the most pressing issues facing our region, and how do you propose we resolve them?

Homelessness is major. As a school board trustee I can advocate for policies that provide resources for homeless youth and their families. Our school district currently accesses resources for our students.
Two other issues are lack of affordable housing and poor public transportation. To address these issues I will advocate for needed changes with our elected officials at city hall and Board of Supervisors.

5. What is your vision to attract major business/Fortune 500 companies into our region?

I can explore grants from large corporations with school districts. This could help to create jobs for our students by creating a workforce for these corporations.

6. Share your vision to make our region a better place for small businesses.

I promote small businesses on my social media. I frequent local owned coffee shops, healing arts, clothing boutiques, and art galleries and encourage others to do the same. I promote the school district to engage with local artists to provide art and music programs for our children.

7. Describe your position on Community Benefit Resolutions, Living Wage Ordinances, and Project Labor Agreements.

I am in support of Community Benefit Resolutions providing they consider the financial impact on displacement on community resources (non-profits, arts and cultural amenities).

8. What is your position on requiring employers to provide health care insurance to workers and families?

I am in full support of employers being required to provide health care insurance to workers and families.

9. Describe your vision for improving economic conditions and job security of people within the office you are seeking.

I will continue to support fair negotiations for our teaching staff. I will continue to support extended professional development and always looking at benefit packages for our classified and credentialed staff.

10. Identify three (3) key endorsements that you have received for your candidacy.

Natomas Democratic Club.
